LinkedIn: Hamzeh Emreish | GitHub: [github.com/sh4faq](https://github.com/sh4faq) | Portfolio: [hamzehmreish.netlify.app](https://hamzehmreish.netlify.app)

---

## EDUCATION

CUNY-Lehman College | B.S. Computer Science | Expected May 2026 | GPA: 3.2

Coursework: Data Structures, Full Stack Web Dev, Discrete Math, AI/ML, Robotics

---

## TECHNICAL SKILLS

- **Security Tools & Testing:** Burp Suite, SNORT, Splunk, Wireshark, Nmap, Nikto, FFUF, gobuster, subfinder; vulnerability assessment and penetration testing methodologies
  - **Programming & Scripting:** Python, JavaScript, Bash, Java; REST API development; automation scripts for security testing and file processing
  - **Web Development:** React, Node.js, Express.js, PostgreSQL, HTML/CSS, Vite; full-stack application deployment (Vercel, Railway)
  - **Networking & Infrastructure:** TCP/IP, DNS, Active Directory, Group Policy, RDP/VNC, SSH, Tailscale; remote monitoring and system administration
  - **Virtualization & Containers:** Proxmox, Docker, VMware, VirtualBox, Hyper-V
  - **Reverse Engineering:** Binary/hex analysis, proprietary file format documentation, struct-based parsing, Blender Python API
- 

## EXPERIENCE

**Equinox - Manager on Duty (MOD)** | Scarsdale, NY

**Nov 2023 – Present**

*Promoted from Front Desk Associate; previously at Mamaroneck location*

- Oversee daily club operations during manager absences, ensuring member safety, staff coordination, and facility standards across all departments.
- Trained and onboarded 10+ new team members on front desk systems, member services protocols, and club policies.
- Cross-trained in Pro Shop operations including inventory management, POS transactions, and product knowledge.
- CPR/AED certified; emergency response-ready.
- Worked at Hudson Yards and Printing House flagship locations; recognized by HQ.

**Hackerone + PortSwigger Web Security Academy — Bug Bounty / Labs**

**Jan 2024 – Present**

- Completed hands-on labs focused on real-world Ethical Hacking challenges, enhancing skills in Privilege Escalation, SQL Injections, and Auth Bypass.
- Developed and refined skills in system exploitation, privilege escalation, and secure system configuration.

**Yonkers Car Wash — Website & Management System** | 975 Midland Ave, Yonkers, NY

**May 2025 – Present**

- **Developed and supported the full-stack membership and billing website**, integrating member management, customer inquiries, and remote monitoring of car-wash systems via RDP/VNC through Tailscale.
  - **Managed ICS infrastructure, database, billing automation; increased renewals 35%.**
  - **Supervised and trained a 15-person team**, monitored cash registers and site operations remotely, and quickly mastered troubleshooting across all car wash systems.
- 

## PROJECTS AND ENGAGEMENTS

- **Participated in HackerOne and Bugcrowd bug bounty programs**; submitted reproducible security reports with proof-of-concept demonstrations and remediation recommendations.
  - **Completed HackTheBox labs** focused on ethical hacking, privilege escalation, and bug bounty methodologies.
  - **CodePath Blue Team (Oct 2024):** NGINX rate-limiting, SNORT IDS, Splunk/Wireshark analysis.
  - **Burp Suite Automation API (Nov 2024):** Developed a Python extension exposing Burp Suite control via REST API for automated AI security testing.
  - **MCP Kali Server (Dec 2024):** Built a Model Context Protocol server automating Kali Linux pentesting tools; provides programmatic access to Nmap, Gobuster, Nikto, SQLmap, Metasploit, and Hydra with SSH/reverse shell session management. [GitHub: github.com/sh4faq/MCP-Kali-Server](https://github.com/sh4faq/MCP-Kali-Server)
  - **Full-Stack Merchant System (Nov 2024):** Deployed PERN stack app with CRUD, search/sort, dark mode. Live: [full-stack-pern-app.vercel.app](https://full-stack-pern-app.vercel.app)
  - **Game Asset Reverse Engineering Toolkit (Dec 2024):** Reverse-engineered VXL/HVA/MIX binary formats; created Blender addon for 3D-to-voxel export.
- 

## CERTIFICATIONS

- Google Cybersecurity Certificate — *Accomplished Aug 5, 2024*
- CompTIA Security+ SY0-701 — *Accomplished July 29, 2024*
- CodePath: Intermediate Cybersecurity & Python Programming — *Accomplished Oct 15, 2024*
